## The Conference

Please join nursing colleagues from academic and practice settings across the country for the Clinical Nurse Leader Association's first regional conference. Designed for CNLs, nurse educators, practice partners, and students, this Northeast Regional Conference will offer a platform to examine the ongoing evolution of the CNL role within the context of today's health care environment, project potential opportunities for the future and create a CNL toolkit.

Through presentations and open dialogue with today's leading authorities on the CNL role and practicing CNLs, participants will address the challenges, successes, and outcomes associated with the implementation of this exciting role.
